(54) PROTOCOL CONVERSION DEVICE

(57) Abstract:

PROBLEM TO BE SOLVED: To use peripheral equipment to be connected onto a network from a computer without considering the network.

SOLUTION: A protocol conversion device 20 is connected to a host computer 10 through a USB 80 and makes printers 40 and 50 and a scanner 60, which are connected to LAN 70, act to be connected to the USB 80. The protocol conversion device 20 logically operates as a USB-HUB 20' for the host computer 10. Printers 40' and 50' and a scanner 60' can logically be used as peripheral equipment through USB-HUB 20'.
